

Introducing Nippon Steel Corporation new range of ZU Sheet Piles

**Combining all the structural benefits of 'Z' piles
with the installation advantages of 'U' piles**

Pile Ref.	Pile Dimensions			Pile Properties			
	Width (mm)	Height (mm)	Thick (mm)	Area (cm ² /m)	I _{xx} (cm ⁴ /m)	Z _{xx} (cm ³ /m)	Weight (kg/m ²)
ZU-900	900	230	10.8	122.2	10500	902	96.0
ZU-1600	900	300	13.2	160.4	24400	1610	126.0

Key Benefits Include:

- Widest 'hot rolled' steel pile section rolled in world with quality proven Larssen type interlock.

- Extremely competitive section modulus / mass ratio.
- Supplied in European Grade S355GP equivalent steel with mill certificates.
- Large width resulting in reduced installation costs.
- Reduced welding costs for permanent basement solutions.
- Reduced sealant costs for cut-off wall / impermeable barrier solutions.
- Can be installed using Silent Vibrationless Pile Pressing methods.
- Available ex. stock for immediate delivery on a 'Sale' or 'Supply & Installation' basis.
