

ENVIRONMENTAL POLICY STATEMENT

Sheet Piling (UK) Ltd take a responsible and proactive approach to environmental management and are committed to the continual environmental performance, improvement of our activities, products and services as an essential part of our environmental in-house policies and procedures.

This on-going commitment will be achieved by identifying, setting, monitoring and reviewing environmental objectives and targets based on the company's significant environmental aspects. This will include:

- Compliance with environmental legislation and other requirements to which our company subscribes including relevant industry guidance.
- Maintaining an effective environmental management system.
- Identifying our environmental impacts and set and deliver environmental objectives and targets such as raw material, utility and fuel efficiency, reducing the amount of waste generated and improving the sustainability of our business through the sustainable procurement of goods and services.
- Preventing pollution.
- Working to adopt and implement standards for good practice in reducing waste, recycling more and increasing the use of recycled and recovered materials.
- Working with clients, contractors and suppliers to improve their environmental performance.

This policy is communicated to all our colleagues, customers, subcontractors and suppliers and is available to any other interested parties. Through internal training we shall ensure that all colleagues are aware of this policy and their role in meeting our objectives and targets.

Our aim is to achieve our policy goals through colleagues, subcontractor and supplier involvement, working together with the effective use of our environmental policies and procedures.

Full details of the organisational arrangements for environmental management will be set out in the Sheet Piling (UK) Ltd Management System and associated documents which underpin this policy statement.

This policy, objectives and targets will be regularly monitored and will be reviewed, annually, via a formal management review.
