

Are you...

...looking for a single solution for earthwork support requirements?

...currently sourcing separate packages with numerous suppliers?

...taking on unnecessary health and safety risks and responsibilities?

...exposed to programme delays and logistical co-ordination problems?

...adding costs to your project that you could avoid?

Excavation Support Solutions believes the answer to all of these questions could be 'yes'.

**EXCAVATION
SUPPORT
SOLUTIONS**

A trading division of Sheet Piling (UK) Ltd. Registered No. 8300227.

As a new stand-alone division within one of the leading sheet piling specialists in Britain – Sheet Piling (UK) Ltd – and one solely focused on small and medium sized projects, we can offer you:

- A one-stop solution for your temporary earthworks.
- Nationwide coverage.
- A full turnkey service encompassing design, project management, pre- construction installation and sheet pile extraction.
- A timely, safe and HSE-compliant way of managing your sheet piling requirements.
- Top-quality sheet piles, ranging from light to heavy-duty, tested for strength and stability.
- Less wastage – no need to write-off materials at project end and incur a cost doing so.
- A solution for all excavation and shoring scenarios, including cofferdams, trenches and temporary and permanent sheet pile walls.

Ready to approach your sheet piling earthwork support requirements in a brand new way?
